

About Sanitech: A brief history

Sanitech was founded in the early 1980's as the first portable toilet hire company in South Africa to supply sanitation facilities to areas in which no sanitation infrastructure existed.

In 2007, Sanitech was purchased by Waco International - the leading forming, shoring and scaffolding and relocatable modular building service provider in the mining and resources, infrastructure, industrial maintenance, education, healthcare, entertainment events and construction sectors in the geographies it operates in. In South Africa the group companies are Formscuff, SGB-Cape and Abacus.

Innovations and New Products

We constantly search for the best available products. We purchase our products from both local and international suppliers. We have recently and will continue to invest heavily on upgrading our available options and fleet, the recent acquisition of an additional 60 state of the art mobile trailers and upgrade of the special event fleet with imported units from the US are examples of this.

Sanitech Divisions

Sanitech Hygiene

Sanitech Hygiene was established in 1996 and currently provides coverage to the entire of South Africa via its three Branches in Johannesburg, Cape Town and Durban. Sanitech Hygiene supplies, sells and maintains bathroom as well as change room fittings. It also offers products and services related to washing and drying hands, sanitisers, bins and fragrances.

Sanitech Toilet Hire

Sanitech Toilet Hire has established itself as the only National supplier of portable sanitation solutions, with Branches in six Provinces and a total fleet of over 14,000 units. Sanitech Toilet Hire supplies, services and manages the rental service of portable toilets, mobile ablation units and conservancy tank pumping. It also sells toilets and chemicals used for maintenance.

Sanitech Toilet Hire is divided into three sub-categories:

- Construction
- Special Events
- Informal Sector

Our Supply Chain

Our high-quality special events units are imported directly from the United States, while our construction and trailer units are locally sourced from the leading suppliers in South Africa.

All our hygiene products are also sourced from prominent local manufacturers.

Product Quality

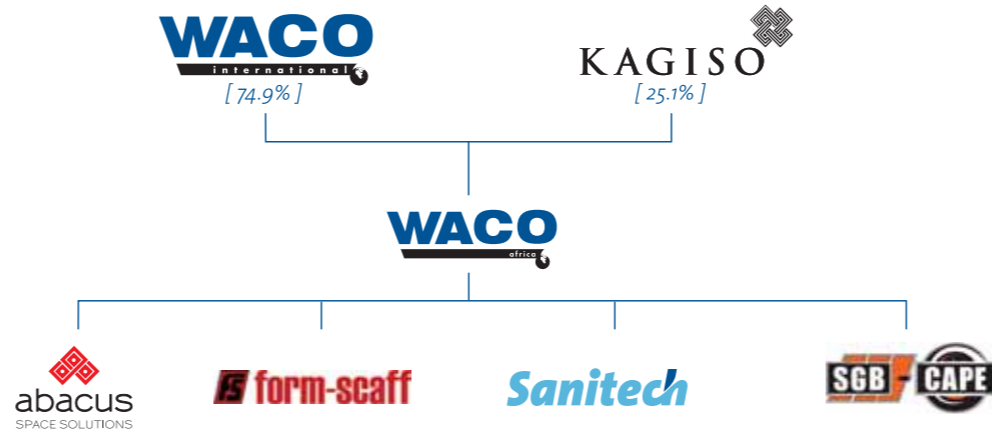

Our portable toilets are manufactured from wither fibreglass or rotomoulded plastic.

Sanitech's Corporate Social Responsibility Initiative

Sanitech gives back to communities on regular intervals. An example of this was Sanitech in conjunction with local community leaders distributed 720 food hampers to the Kliptown community in Soweto on the 19th of December 2008. 10 staff members from Sanitech's Gauteng branch were involved on the day to distribute the food hampers. Kliptown was selected for this initiative as Sanitech has been involved in providing frequently serviced temporary sanitation to the area and felt that it would be a fitting way to give something back to the community.

Health & Safety

Sanitech believes that environmental health and safety is an ethical, business and fiscal imperative. Our world class EH&S management system driven by Waco International corporate standards, helps us meet this responsibility by protecting our most valuable resources – our employees, customers, communities and the environment that sustains us all. In addition to following EH&S policies within our own company, we look for vendors and clients that demonstrate the same values.

Special SHE Awards: Achievement & Improvement

Sanitech Secunda Branch scored 92% for Contractor Compliance at Sasol Synfuels and Sasol Mining Business Units.

The Sanitech Group LTI Frequency rate is currently zero.

Waco Africa appointed a National SHEQ Manager for the Sanitech Group to ensure Legal and Corporate Standards are implemented and sustained.
