Industrial Water Package Plants

Sanitech
Integrated Hygiene & Sanitation Solutions

Experience a Complete Solution... With a Difference!
Applicable Sectors

- Mining
- Manufacturing
- Chemical / Petrochemical Industries
- Electricity, Gas, Steam and Water Supply
- Food Industries
**Industrial Water Package Plants**

**Applications**

- Waste Water Treatment from various sources to provide Industrial Process Water
- Waste Water Treatment from various sources to Municipal discharge levels
- Waste Water Treatment from various sources for Re-use or Recycling purposes

**Capacities**

- 1 – 20 m³/day (1 000 - 20 000 Litres/Hour)
- 20 – 1000 m³/hour (20 000 - 1 000 000 Litres/Hour)

**Treatment Process**

The treatment process involved is dependent on the composition of the source water, and can include any or all of the following treatment stages;

- Abstraction
- Screening
- Oil / Water Separators
- Biological Treatment Systems (SBR, FBR & MBR)
- Chemical Conditioning
- Coagulation/Flocculation
- Sedimentation
- Filtration (e.g. Sand, Cartridge, Ultra, Ceramic, etc.)
- Disinfection
- Sludge Handling
- Reverse Osmosis (Desalination)
